RECOGNITIONS:

Tex Ash made a trip to Monterey Fairgrounds where he encountered a descent that was unacceptable and went no further. It was not a very productive trip as he did not participate in the event and he had no boat or anything, he was not fined either. I think that was the gist of it! **Michelle Blunkall** was recognized for her recent award as the Insurance Agent of the Year presented by the Tehama County Farm Bureau, and voluntarily offered \$50. Congratulations Michelle! **Bev Ross** set the record straight regarding a horse that her son-in law raised and trained which John Growney had taken credit for. John said the horse was stolen from him.

PROGRAM:

Mike Metherd introduced his sister, **Vicki Allwardt** to tell us about her art. Vicki brought some beautiful examples of her work that she passed around. She began by defining tole painting which is painting on tin versus decorative painting which can be on many different surfaces. Fine art is art that is something you would hang on a wall whereas decorative art is artwork on a functional object. To back that up we saw artwork on an album, a bucket, box, wine glass holder, and other items. One of the items was a heart-shaped box decorated with a lovely floral design that Vicki graciously donated to the Rock-n with Cupid Raffle. Vicki also showed some slides including a large picture of a motorcycle that was prepared for a restaurant to show the variety of her talent. The history of decorative painting was explained including the Early American, Swedish and Pennsylvania Deutsche (not Dutch) origins. Vicki teaches classes and made the point that everyone has their own style, she has a website for more information. Vicki and Mike came from an artistic family, their father had a renowned sign shop in Red Bluff and built the business designing hand lettered grocery store signs.
